This event provides members a National Ranking qualifying opportunity, and for those attending the National Championships invaluable practice on a challenging field course. The course is set on property 20km from the centre of York, a small historic town situated 50 minutes drive east of Midland. ## THE COURSE

The course has been laid out taking into account the natural terrain available, allowing for a variety of target locations. The area is reasonably open with few areas of dense undergrowth allowing for good visibility and ease of walking. Improvements have been made to make for the easiest access possible where the natural features create obstacles. Marked pathways will allow some restricted access for spectators to observe the targets along the course. Robust footwear with good ankle support is recommended for competitors. Insect repellent may be advisable. Water points will be provided around the course and refreshments will also be available for purchase. Lunches available by pre order in the morning.
